

Realize the excitement of
LEARNING and the
joy of **DISCOVERY**

Directors' Message

The essence of education is not a mere acquisition of knowledge or facts. It is, primarily, training the mind to acquire new things on its own and secondly developing in student an ability to critically analyze the knowledge and apply it where ever needed.

One may not need to reiterate the importance of Intermediate (+2 level) education which is a bridge between schooling and graduation. This two year programme lays a foundation for students opting for higher learning. Comprehensive understanding and a full grip over the concepts at this level are the essentials of strong foundation. Hence students coming out of school looking for a gateway to fulfill their dreams have to find a right combination of concept based learning and exam centric training.

Ranks, despite being important to get admission into good institutions for higher learning, should not be the end goals of education. On the contrary a thorough preparation of the student through instruction, training and sharing of ideas invariably leads him to the goal he seeks. We, at Ascent believe in these ideals and are wholeheartedly committed towards providing a formative influence leading the students towards success.

Our Vision & Mission

Children at 10 + 2 will be learning, for the first time in their lives, about many of the fundamental and deeper ideas about the physical world we live in. Our aim is to communicate the joy and excitement of knowing the inner workings of nature and the power scientific method in gaining deeper understanding and visualisation about our every day experiences with nature. The abstraction through scientific method gives a deeper insight and intuition about the nature of things. This insight should be combined with practical experimentation and problem solving to let the child gain confidence on his or her knowledge and understanding. This is the essence of our integrated program.

To achieve the ideals ASCENT CLASSES was started in the year 2007 by a group of teachers. Many more teachers have joined our institute in this endeavour. Our meticulous planning and enthusiasm in delivering right education started giving fruits from the very first year, with good ranks in IIT-JEE and AIEEE. Many of our students were admitted that year to such renowned institutions as Indian Statistical Institute, Indian Institute of Science Education and Research and Centre for Excellence at Santhiniketan. The following years results vindicated our capacity to produce extraordinary results.

You can count on us for.....

- > Realization of latent strengths and talents
- > Awareness of and planning for the immense possibilities available in future
- > A foundation not just for these two years but for many more years to come
- > Great satisfaction and many good moments to cherish.

Directors & Our Esteemed Faculty

The most important factor that lies above all in any academic institute is the quality of its teachers. We are proud at Ascent Classes that we have very talented and dedicated faculty with passion for teaching and commitment for excellence. The Core Team of faculty at Ascent Classes, have a proven working methodology that has shown remarkable success. Many students who have been trained by us are presently studying at various IITs and many more are already well placed in their careers.

Dr. M. Umadhar Patnaik

M.Sc., Ph.D.,

Director & Faculty of Mathematics

With 37 years of rich experience teaching Mathematics at undergraduate and graduate level programs both in India and in US, he has a passion for teaching and commitment for excellence and has incredible amount of energy helping students at all levels to understand the intricacies of the subject. In addition to the academic achievements, he also has experience with the industry.

As a consultant to Sankalp Cybernetics, he was involved with design and analysis of algorithms in cryptography. He is very passionate about the subject of mathematics, has sound knowledge and deep understanding of the subject. He brings his rich experience to the classroom by way of real world examples in a language understandable even to college students. He regularly conducts classes for Olympiad exams and organizes teacher training camps.

V. Chenna Reddy

M.Sc.

Director & Faculty of Mathematics

Has 22 years of experience teaching Mathematics for 10+2 students. He worked at various institutes training students for IIT-JEE as well as AIEEE and Olympiad exams. He is popular among students for his enthusiasm and the inspiring and motivating support he offers each and every student. Young, dynamic and enthusiastic, he finds many ways to bring innovation to the classroom.

G. Nageswara Rao

M.Sc.,

Director & Faculty of Physics

Has nearly 27 years of dedicated experience teaching Physics at various institutes, training children to IIT-JEE. His passion for Physics and in depth knowledge of the subject obviously percolates into the classroom. Popularly known as NR sir, he has never let a chance of motivating children to set goals pass by. He has guided countless children and aspirants to successfully qualify in IIT-JEE, NEET & Olympiad exams.

Y. Chiranjeevi Reddy

M.Sc.

Director & Faculty of Chemistry

He has about 24 years of rich experience in teaching Chemistry for national level competitive examinations like IIT-JEE. A large number of students have secured good ranks under his able guidance. He is very popular among the students. He motivates and inspires students to perform at their highest potential. He can make even an average student understand even the most complex concepts fully and deeply by his art of teaching, step by step analysis from the most fundamental level to the required level in the subject. He has been coordinating and guiding the department of Chemistry at Ascent classes since its inception. Earlier he worked under the guidance of Sri Chukka Ramaiah and also worked for some premier institutes that chiefly pertain to IIT-JEE coaching.

Sadanand Moses

M.Sc.

Director & Faculty of Chemistry

An eye for details, a photographic memory and a flair for administration coupled with aptitude for Chemistry makes him an ideal choice for playing the dual role of an administrator and an academician. With a sound teaching experience of more than 23 years and a passion for Chemistry he has guided and inspired many aspirants of IIT-JEE toward their expected goals. Together with hard work and perseverance he has reached the heights many a colleague would appreciate & applaud.

Three way Interaction

> **TEACHER** > **STUDENT** > **PARENT**

Bringing up children is a team work where Teacher-Parent-Student constitute an integral part of education. Being true to the role we play can only make it possible for our next generation to make the future of our country worthy.

Role of Teacher

Here at Ascent Classes teachers are not mere Lecturers; they are motivators and inspiring role models who guide the children to savour the joy of learning. At Ascent Classes teachers create an environment in which all students feel welcome and are able to participate fully in the learning activity. Here teachers are strict, yet affectionate, friendly and easily approachable.

1

Role of Student

Must be enthusiastic to learn and should have passion for knowledge. Must be willing to interact with the teachers and ready to share his/her ideas as well as apprehensions. He or she must be willing to do hard intellectual work to achieve understanding.

2

PARENT

Role of Parent

At Ascent Classes we value a great deal the parent teachers partnership in enriching the common goal of helping the child get the best education possible. If parents can empathize with children and follow their progress and involvement regularly, children feel encouraged and motivated to work hard. Parents must interact with teachers frequently so that, valuable feedback is exchanged and a complete assessment of child's involvement and performance in the program is possible.

Testimonials

Dr. N.K. Panigrahi, MD, DM
Fellow, American College of Cardiology
Fellow Indian College of Cardiology
Senior Consultant and Interventional
Cardiologist Apollo Hospital, Vizag

Parent of Chinmayee Panigrahi
IIT-JEE - AIR - 321 (GC)

I am extremely grateful to Ascent Classes which brought out the best from my daughter Chinmayee Panigrahi to secure AIR-321 (General) in IIT-JEE 2012 and made her eligible to get into IIT, Bombay. Right from its inception six years ago, this institution is renowned for its dedicated, hard working, knowledgeable, yet amicable, accessible, approachable and helpful teaching staff. Excellent teachers are those who not only teach and make you understand the subjects but also guide you and ignite you to move towards higher echelons of life. Fortunately, faculties of the institution have all these ingredients in them. One of the strengths of the college is its flexibility of timing of the curriculum which provides students sufficient time to inculcate habits like self study and create enough space and time for them for self-understanding. This concept is contrary to the commonly believed cramming curriculum with tight time-table. I wish the institution will add many more achievements and success stories to its credit.

G. Ramanadham
Asst. Manager, Steel Plant

Parent of
G. Gnana Praphulla,
IPE Topper - 986/1000
& AIEEE AIR - 878

All parents want a great future for their kids. Ascent College helped both my children get admission in National level institutions. I will always be thankful to the Ascent team for the same. In addition to good conceptual education my children were also taught great morals and values. I personally appreciate the efforts of NR Sir and Karunakar Sir in this regard. I whole heartedly believe that the disciplined academic environment of Ascent paved the way for my children becoming successful. I sincerely believe and wish that the college would continue to flourish in the years to come in preparing many more students to have a bright future. With warm regards.

I. Ramakrishna, Businessman

Parent of I. Sampreet,
IIT JEE Mains AIR - 74 (Gen.)
Advanced AIR - 204 (Gen.)

Just like every other parent, I was unsure about where to join my son for IIT-JEE coaching. We finally decided that it would be Ascent. A decision that would turn out to be wonderful at the end of the two years. With the very little I knew about JEE, I could only ask my son to study well. Everything else was taken care of by the team in Ascent. When my son finished his two years course, I found my son not only better at academics but also better as an individual. Ascent also provides good hostel facilities. I am very thankful to Ascent for their contribution in my son's success.

A. Krushna Rao

Deputy Exec. Engineer, Irrigation Dept.

Parent of A. Sri Harsha,
IIT JEE AIR - 615 (Gen.)

Ascent Classes is a place where the lessons are taught with love and affection. Here students are taken care of more than by their parents. In my feeling the students will learn subjects in a healthy environment. It is like 'home food' when compared to 'outside food'. Teachers work and focus on bringing out the actual capacity of the students. They don't "rub and wash" students but always concentrate to identify the lacunae and guide them to perform with 100% efficiency.

N.S. Aakash Rao

IIT-JEE-09 **AIR 26** GC

AIEEE-09 **AIR 11** GC

Computer Architect at Twitter
Batch : 2007-2009

While preparing for an exam as competitive as IIT-JEE it is difficult to find an institute where the real focus is on learning. I am immensely grateful to ASCENTCLASSES for being an exception to the trend, and creating an environment where I, like so many other, got an opportunity to learn, grow and explore. The work culture, and the quality of teaching at ASCENT, which are by far the best I have ever come across, coupled with the increasing guidance and support throughout the duration of the program is definitely the best a serious IIT aspirant can hope for. In the two years we spent at ASCENT, my friends and I have gained the confidence that not only gave us the competitive edge to perform extremely well in various exams, but also sets us apart, wherever we are now.

D. Sri Nishanth Nihath

IIT-JEE-2010 **AIR 91** GC

AIEEE-2010 **AIR 5** GC

Research Assistant at MIT-USA
Batch : 2008-2010

As a successful student in IIT-JEE, I would like to share a few of my experiences with you. First of all I would like to thank ASCENT CLASSES for the huge support throughout the two years I was with them. When I joined ASCENT, I was as apprehensive as any other student of getting into IIT, but in a few months only ASCENT removed all my doubts and instilled in me confidence that I will definitely clear JEE. There was no turning back from then on. ASCENT has highly distinguished teaching staff and they were very friendly and always open to interaction. They gave me the kind of base that I needed not only to clear JEE but also perform well in my further studies. I had a wonderful learning experience with team ASCENT.

Chinmayee Panigrahi

IIT-JEE **AIR 321** GC

Mech. Engineer at IIT, Mumbai
Batch : 2010-2012

I can still remember my first day in Ascent when Patnaik sir taught Number theory. I remember thinking, "Thank God, I have come to a place where we are taught to learn, not simply score marks." Being a student of science, understanding the inner laws of the universe and being amazed by discovery is a desideratum. Thankfully Ascent and I share this ideology. Ascent is led by an army of professors who believe that students should understand the laws of nature before they can solve confounding problems and numericals. The professors are extremely approachable and proactively encourage students and boost up the courage. Another unique aspect of Ascent is the freedom and the time available to introspect both of which are essential parts of learning. My two years in Ascent were my transformative years when the seeds of learning were planted. Always Grateful to ASCENT.

K. Sai Mohith

IIT-JEE Advanced 2016 **AIR 9** (R)

Mains-2016 **AIR 15** (R)

Computer Engineer at IIT, Mumbai
Batch : 2014-2016

As a 2-year student at Ascent Classes, I gained a lot of knowledge and skills from the experienced faculty there. I was a part of the Ascent Special Batch which ensured I got the best possible teaching and specialized testing procedures. The faculty made sure that I was fully equipped to crack JEE Advanced by designing various tricky papers. In my opinion it is one of the best colleges in the city.

YSS Narasimha Naidu

IIT-JEE Advanced 2020

AIR -22 Gen-EWS

Mains-2020 **AIR 5** Open Category
EWS-AIR 1

Computer Engineer at IIT, Mumbai
Batch : 2018-2020

Here at Ascent, you will have an all-round learning experience. Moreover, The highly distinguished faculty and the highly motivating environment provided by the college really does the magic for the competitive exams. And, The joy of learning at Ascent can never be forgotten. And also, here you are provided with ample time for Introspection and self-study, which I believe are crucial. Nonetheless, Things we learnt here provided us with some valuable skills for post-JEE too, for which I am forever grateful to my teachers and college. Indeed, Ascent elevates you to the summit!!

NEET PROGRAMME

Biological sciences help us understand complex forms of life involving humans, animals and plants. Understanding the intricate details of life help humans know how to care for themselves, animals and plants in a proper manner. Ascent classes has put up a programme, for students desiring to major in Biology, that enable them not only to excel academically in the field but also to gain deep insights and appreciation of the subject.

M. V.R. Murali Krishna
M.Sc., Chemistry
Director & Faculty of Chemistry

M.V.R. Murali Krishna, MSc (Chemistry),

He is one of the directors with ASCENT Medical Academy possessing vast experience as an administrator and faculty of Chemistry, been pivotal in fulfilling the dreams of hundreds of students in attaining MBBS seats in India. He is former Dean and faculty in reputed corporate teaching institutions. Believes in smart hard work and team work. His cordial relations with his colleagues speak about selfless personality. Admired and respected by students for his extraordinary teaching, administrative and motivating skills. His exemplary determination to set and achieve goals makes him a mentor.

Salient features

- > Dedicated faculty with years of experience training students for NEET, for admission to medical courses.
- > Unique work culture that gives the child ample scope for self development and stimulates the child to evolve his/her own ideas over and above what is taught.
- > Integrated programme (Competitive Exams+Board Exams) – which saves time and reduces burden on the student.
- > Fully equipped Labs for all three subjects - Biology, Physics and Chemistry. Practical classes will be conducted to the students right from the 1st year.
- > Maths classes specially designed for biology students enabling them to understanding Physics better.
- > Constant monitoring of the ongoing performance of the students and providing timely feed back of their progress.
- > Ensuring individual care and focus on academic improvement.
- > Extra curricular activities and outings to rejuvenate students from their daily routine.
- > Well disciplined environment (strict yet affectionate).
- > Limited admissions and Limited Number of Students in each section.
- > Transportation facility
- > Parent-Teacher-Student interactions.
- > AC Class Rooms.
- > Hostel Facility for boys & girls.
- > Unique Ascent working methodology.

I am thankful to Ascent Classes which helped my child to crack NEET-2021. The faculty is excellent. The Institute hosts dedicated and hard working faculty who guide each and every child. The Infrastructure like hostel, food, classrooms, etc., are very good. Everyone can easily accommodate in the college. The teachers not only teach you and understand the subject but also encourage the child and tell the tricks to crack the exam. I wish the Institution would get success with many more achievements.

Achieving a medical seat have always been my dream. I couldn't make it for the first time then I joined Ascent Classes hoping to improve and crack my goal. Ascent Classes had the best and experienced Director, Principal and faculty who helped me in nourishing my skills. The faculty took care of every minor detail and helped me in learning from my mistakes. Their continuous guidance kept me motivated and made it easier to reach my goal. Along with classes, they made my mindset more stronger for the D'day. Continuous testing of knowledge through weekly and monthly mock tests gave me more insights about my performance and how to improve it. I would like to thank the whole Ascent family who has been a crucial part in this journey.

Our Facilities

Counsellor

Ascent takes pride in having a counsellor to help students with academics, career and resolve inter-personal issues with right approach

Sheetal Singh Yadav M.A., M.Phil (Delhi University)

She is member of Indian society for Training and development (Delhi Chapter) with 17 years of experience working as Counsellor and soft skill trainer with Amity University. Communication Trainer with The British Council, New Delhi branch, IBM Technologies and Redington India Inc. Title Editor in child Psychology NCERT for 9 years. Co-authorised & Partnered with American Learning Center for research on Transition of Modern English and Impact on Child development.

Labs

Experiments and practical demonstrations are part of a larger intellectual process of learning. Theoretical knowledge has to be augmented with practical experience. Many times a good demonstration enhances students' understanding and intuition. That's why right from the first year of the course we conduct practical lab classes.

Library While practice makes a man perfect, reading makes a man ready. We are equipped with a Library, with good reference all subjects books. Books are the quietest and bestest friends; we make books accessible to provide all possible support to our students.

Annual Academic Achievements Awards of Ascent

Recognizing and appreciating academic success of a student surely gives him/her the much needed impetus to reach the apex. Ascent presents cash prizes to meritorious students every year

Education is the art of utilization of knowledge. It is not mere accumulation of details and facts: rather it is acquiring the ability to interface all these details and have a first-hand feeling of the subject. What education has to impart is an intimate sense of the power of ideas, the beauty of ideas, and the structure of ideas, together with the particular body of knowledge
